

Covid-19, Covid-19, Oh how you have been so mean to me. Throughout the past 2 years of history,

You have taken from me. from dining out to spending time with friends and family, Covid-19, Covid-19. You have messed with me both mentally and physically, being locked up in my house like a penitentiary.

From getting the Covid and not feeling sick which messed up my skiing trips. To my family I don't get to see often I greatly miss. To trying to get my amazon packages that take forever to ship.

I will never get used to this...
