

Did you know that?

By Anonymous

I have watched Normal burn, but I so wish I would have killed it years ago.

Normal should be burnt up and cured

Sanitized and disappeared

But it hasn't, and it won't

You are not Normal, did you know that?

Your youth was a toxic smog, oh how it misguided you, keeping you from your Normal

All you have to do is buy a new brain

A new body

Did you know that?

Poor thing

The mere idea of how you have lived your life so far is my own personal hell

Did You Know That?

That damned Normal

Trapping me in my room

I don't want Normal

I'm so tired

I just want contentment

Did You Know That?
